
AMSTRAD
HIGH STEEL
SCREEN 7

This is no time to feel dizzy. As you balance precariously on a narrow steel girder, hundreds of feet above the hard concrete below, a head for heights is a must. There's a skyscraper to be built, and the Spitters, Crawlers and metal-munching Gremlins are in hot pursuit. You step over the slippery remains of your workmates' lunch, hurl your spanner at a menancing shadow, and curse the day you became a high steel worker.

The sixth floor is complete. The huge crane delivers the next girder, just as a brick smashes into your hard hat. Things might not be so bad if you could just find your sandwiches.

Can you overcome all obstacles and dangers confronting you to tower above the city streets below, or will you end up splatting the pavement like raspberry jam?

Almost unheard of! A completely original arcade game that will keep you hooked to your computer for hour upon hour of frantic high altitude addictive fun.

Terrific graphics, sampled sound and a great sense of humour make High Steel one of the best new games in ages.

Screen Shots may be taken from a different machine version
